My Y Story The Lee Family

Our family really likes being involved with the Y. We have a family membership and regularly participate in programs. Everyone at the Y knows our kids and always greets us warmly when we walk through the door.

Our children take part in both the Before Care program and Camp Thundermoon. Stephanie is truly amazing—always warm, accommodating, and professional. The entire staff is great, and we appreciate how affordable the programs are.

This summer, our children are returning to Camp Thundermoon. Our son loves being outside, playing gaga ball and water games, and chatting with the counselors, who he says are the best part! The counselors connect so well with the kids that when we run into them outside of camp (like at the grocery store) it's like seeing old friends.

Last summer was our daughter's first experience at Camp Thundermoon, and she loved it from the start. Her favorite activities are water play and arts and crafts. She also thinks the counselors are fantastic. I love how comfortable she is at drop off each morning.

What I value most is that camp gives my kids structured, meaningful interactions with other kids and supportive adults. They get to explore new activities, meet a diverse group of kids, and build friendships. Summer camp also helps maintain a consistent routine, which makes the back-to-school transition much smoother.

I highly recommend Camp Thundermoon to other families.
