My Y Story
Alicia, Berlin YMCA Little Huskies Parent

Berlin YMCA Little Huskies Child Care is a very special place for my family. I love the care and attention the teachers give my daughter. They know her so well and truly care about her.

My daughter started at Little Huskies when she was just six months old, and now she is 20 months old. She absolutely loves her teachers, Holly, Yaya and Cindy! She talks about all her friends and even pretends to call her teachers when she's at home. I also love seeing all the crafts and activities she does. The teachers are so creative and always come up with wonderful ways to make learning fun.

Little Huskies is especially meaningful to me because I attended Hubbard Elementary School as a child. I was thrilled to learn that my old kindergarten classroom had been transformed into an infant, toddler and preschool center. It's wonderful to see my daughter learning and growing in the same place where I began my education.

It's also a family experience. My daughter's cousins attend Little Huskies with her, and my dad works at Hubbard School. He loves seeing the children when they're enjoying activities around the school or playing on the playground. They get so excited to see him, too!

As a kindergarten teacher myself, I appreciate the nurturing environment, creativity and personal attention the Little Huskies staff provides. It means so much to know my daughter is happy, loved and learning every day.

Little Huskies isn't just child care for our family, it is like a second family.
